COMMUNITY GARDEN ENJOYS PANACEA TOMATO CAGES

A private resort community in Southern Ohio recently formed an Organic Gardening Club and transformed five acres of common area into a massive community garden. Over twenty volunteers contributed their time and effort to create rows of unique vegetables and various ornamental flower and butterfly gardens.

Just in time for their annual garden tour event, the volunteers decided to use Panacea's colored tomato cages to highlight specific varieties. The rainbow of tomato cage colors made quite an impression at their event and will be reused for many years.
