EXCITING NEW PRODUCT CATEGORY

DECORATIVE METAL

LANDSCAPE EDGING

Combining the elegant look of cast iron edging with professional-grade metal landscape edging.

We've taken metal landscape edging to a new level with stamped ornamentation that gives this functional product line more personality. Classic designs popular in our wire border fence, like final and arch shapes, are combined with professional-grade 15mm thick sheet metal that can be easily installed to fit any landscape. Pre-galvanized sheet metal is powder coated with rugged, textured finishes for an elegant appearance.

Each metal edge strip is installed using our 27cmH Metal Landscape Edging Stakes (sold separately). 3 per pack, in a matching finish. The stakes connect two strips securely together end-to-end with no wasted overlap. They also install in the center of each strip to provide more flexibility when bending them into curved shapes. An angled, flat top on each stake makes it easy to hammer them into the ground without damaging edging and provides more stability.
